REGARDING CHRYSANTHEMUM STUNT

Our 'Mum Rooted Cuttings for the 1949 Season are grown from clean Mother Stock that flowered normally and is apparently entirely free of Stunt. We feel fortunate to have escaped the wrath of this disease. However, each year with increasing demand for our stock, for the past 42 years we have held rigidly to selecting and propagating only from selected stock that has been allowed to grow naturally and have not sacrificed quantity for quality by discarding the old and reliable school of growing. So little is known of this peculiar disease, its causes or remedies that we cannot guarantee it against Stunt and **WILL NOT BE HELD RESPONSIBLE FOR THE CROP OBTAINED.**
